What's new in The Hex - Quot;Walk Quot; Original Soundtrack:

by Get Stoned & Rave On vinyl LP with art deco styled "Tower" artwork. This is a silver colored copper stone lacquer LP and comes in a full color covers slip sleeve. Released on the same day as the 7th Annual HeliumFest, the debut album from this Orange County band, titled "Get Stoned & Rave On," is an eclectic mish-mosh of psychedelic aesthetics, including a monstrous reworking of the Beatles' classic "Strawberry Fields Forever." However, a quick flip-through the various reviews on this album (i.e. Time Out, Mojo, Pitchfork) will tell you that there is more than meets the eye to this unique confluence of the lives of the two artists. As this album was intimate, the pair asked each other and the recording audience to get down with feeling the full range of emotions--from cuddly playfulness (the interwoven backing vocals on the title track and the track "Swindler") to catatonic gloom (the tracks "Maybe She'll Change", "Titanium Skies", and "Sunday Goodbye"). The two vocals are augmented by some interesting effects and tricks on
