How To Crack:

- **Unzip either the first Lucid Trips Exp. 1.0.x, or the latest official release first before downloading this patch.**
- **Copy the folder somewhere (For example, to your desktop).**
- **Download the latest patch from this link:**
 -
- **Rename it, it's now called "LucidTrips-1.0.5.92Beta.zip"**
- **Extract the alien_russian_vs_american.9x file, to the Lucid Trips folder.**
- **Run alien_custom.xdk to activate it.**
- **Now launch the game, finish the tutorial and online mode. The custom maps are custom.zip, alien_patches.zip, tricks_by_franck12353.zip. These are freestyle, Crazy, Metroidvania, Smooth or BBS maps.**
- **The new maps have a default folder name: "Lucid Trips Game Map".**
- **You can always create your own maps, and upload them to the "//alien_russian_vs_american//" folder of Alien Dispatch.**

Bugs or Issues you can find

-
- **There are guides and tutorials online on how to install the patch, but not all have been updated to the latest versions. If you have a problem with any of this, this is the right place. Please contact me.**
 - **The GFX version of this game has plenty of bugs, especially in coop.**
 - **The support from the guys in the Dark Nexus forums has been rare, late to release of fixes and now 1 year later. It is the best place to find dedicated support. Alien Squadron support is in the forums at**
