Trimble Business Center (TBC) is a business management software product sold by Trimble for CAD, engineering, and field data management. Trimble Business Center is used by professional designers and land surveyors. The Business Center software provides data transfer, data management, project management, and other options including team collaboration and social features. Other key features include: File transfer Quality control Reviewing in the cloud Custom Excel Macros for field data Schedule for field data Trimble Business Center is part of the Trimble ASCOM solution. The Business Center software is also sold as a hardware add-on to UASMaster, Geodac, and Trimble Navigator mobile survey applications. History The initial release of Business Center was for CAD. In 2006, Trimble integrated with Trimble Business Center the field data management portion of their licensed collaborative software UASMaster and released UASMaster+ into Beta. In 2010, Trimble integrated Field Manager, the data management portion of the software, into Trimble Business Center. This integrated version of Trimble Business Center was renamed Business Center – HCE and released in 2011. Product Versions New versions of the product are released every year. Some of the previous versions are not available as freeware anymore. The list of supported features does include support for the previous versions. Recorded Installations (RCI) Trimble Business Center supports two types of installation: RCI and Software Management Console (SMC). RCI allows an operator to point a mobile device to a computer and automatically download the latest version of Trimble Business Center. The SMC is a service hosted online that allows you to install and update Trimble Business Center from a computer.
